Dear Paul,

I am writing to let you know how happy we are with the Hydrosmart that you installed for us a couple of years ago. It has minimised the amount of salt and calcium deposits we find at the base of our young vines and around the dripper heads. We have had less maintenance work on the dripper lines since we purchased your product and this has saved us many hours of work on the property each year.

As well as saving time it has ensured a more even distribution of water to the vines which means that the grapes ripen more evenly resulting in the overall baume of the grapes being more balanced. This has been a great achievement for us as it is essential when making top quality wine. We have been overwhelmed with the response and comments regarding the quality of our wine and we feel sure it is a direct result of the overall management of the vineyard.

The machine has been reliable and has needed no repairs, we would definitely recommend your product as we have been very pleased with the results.

Yours sincerely,

Greta Ozzella
